Artemis Fowl is a criminal master mind genius.

During the past two years he has been involved in numerous criminal activities across the globe.

But now he is moving on to something much bigger.....

Artemis has discovered an ancient race of fairies living at the earth's core.

But these aren't any old fairies, they are armed and dangerous.

Artemis striving to retrieve his family's fortune attempts to steal some of the fairy's gold. Then all hell breaks loose. Will the planet fall into a cross species war?

"Stay back, human. You don't know what you're dealing with."

This is a really awesome book because it's full of action and it's funny. I would give this book a 10 out of 10.
