Hidden Secrets

Artist - Vicki Sangster

Dates - 2012

Vicki Sangster is a predominately self-taught artist whose current choice of media is acrylic paint. Over the last few years, her focus has been on maritime subjects, whether a rusty navigational marker or related sea object. Inspiration for her paintings also comes from the waterways surrounding the area where she lives. Vicki's art expresses the sensational appetite she has for the never-ending variety of marine subjects, including the wildlife around them.
