IMPORTANT INFORMATION FROM THE CHAMPIONSHIP DIRECTOR:

The event will use the FAI "Balloon Live" App with a connected Balloon Live Sensor (BLS). Every competitor **must** familiarise themselves with the set up and use of the App and Sensor prior to the competition.

If you do not have an account on Watchmefly, you will need to create one at <https://watchmefly.net/auth/signup.php>
This is essential; without an account, you will not be able to use the Balloon Live Sensors that are critical to the event.
