

All Abilities Play Space

Survey Response Overview

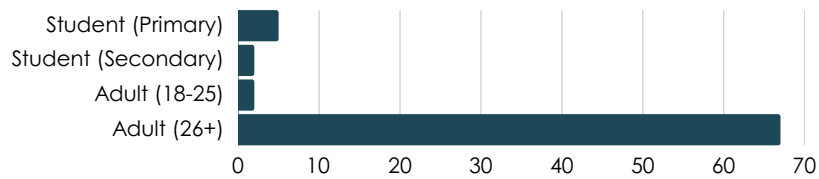

The Shire of Northam community was invited to participate in sharing thoughts and ideas about a proposed all abilities play space development at Bernard Park. Consultation was conducted by Nature Play Solutions between 4th – 14th July 2025.

Responses

Source of responses

Age of respondents in online survey

Findings from online survey

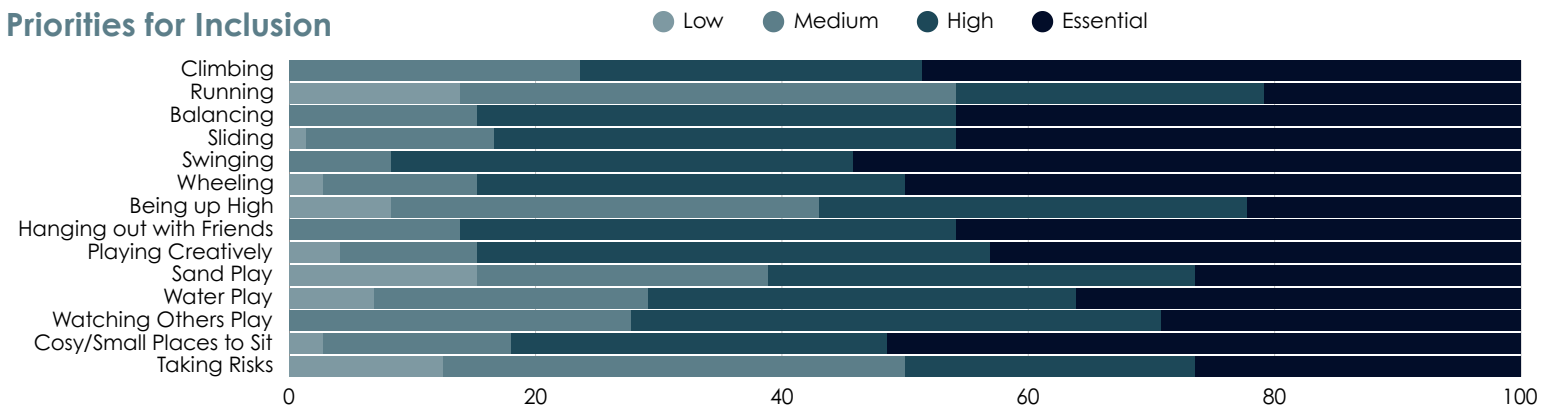

How important is it to have a range of activities for different ages, abilities, and interests to engage in?

How important are trees and plants in the play space?

Priorities for Inclusion

Considerations for further investigation | Based on comments received

- Cultural consideration & inclusion of important cultural elements
- Some specific conditions may be necessary to consider, including non-physical conditions including sensory issues, Autism, ADHD etc
- Accommodations for accompanying adults, including those with a disability
- Accessible toilet facilities close-by
- Accessibility for those using wheelchairs or other mobility devices in all elements including walkways
- Adequate lighting, shade, & shelter
- Design should be relevant to Northam's culture & heritage
- Inclusion of educational/ interactive/ engaging components
- Links to water being close to the river
