## **OFFICER'S COMMENT**

The Auditor has raised a number of issues within the Financial Management Review that need to be addressed to ensure that best practices are being followed by Council. The following comprises the issues raised, the auditors recommendations on the best way to resolve them and managements comments. The level of risk for all the issues raised is low.

### **4.6 Purchases, payments and payables**

Detailed testing of a sample, randomly selected, of twenty transactions, was performed to determine whether purchases were authorised/budgeted and payments were supported, certified, authorised and correctly allocated. The Shire's purchases, payments and payables system was also examined to determine if adequate controls were in place to help ensure liabilities are properly recorded and payments are properly controlled.

In general, controls and procedures over payments and payables are operating effectively and are appropriate for the Shire's current scope of operations. The following areas were assessed as having opportunity for improvement:

**In five instances the purchase order date did not precede the date of the supplier invoice.**

#### **Auditors Comments:**

All authorised officers should be "reminded" of the need to ensure purchase orders are raised prior to the time of authorising works/services or ordering goods. This will help to ensure goods/services have been appropriately ordered and authorised. It will also help ensure budget responsibility.

#### **Management Comment**

*Management will continue to monitor and enforce the need for purchase orders to be created prior to ordering, in addition the purchasing officer will be carrying spot checks to further enhance the procedure.*

### **4.8 Credit card procedures**

A review of the Shire's credit card procedures was performed to determine

if adequate controls were in place.

Six credit cards are currently in use. We randomly selected and tested two credit cardholders' monthly transactions over four months to determine whether they are legitimate and usual in the context of the Shire's operations. This included:

- sighting tax invoices;
- ascertaining whether the transaction was for bona fide Shire's business; and
- determining whether transactions were in line with the Shire's policy.

Overall testing was completed satisfactorily. Controls and procedures are considered to be operating effectively and are appropriate for the Shire's current scope of operations except for the following:

**Credit card statements are not always signed by the credit card holder.**

**Auditors Comment:**

To help ensure credit card transactions are bona fide, all credit card statements should be reviewed and signed by the credit card holders as evidence that all expenses are bona fide.

**Management Comment**

*Procedures have now been put in place to ensure all credit Card statements are signed before processing.*

**4.9 Fixed assets (including acquisition and disposal of property)**

The fixed assets management system including controls over acquisition and disposal of assets, updating of the fixed assets register, depreciation of fixed assets and reconciliation of the fixed assets register to the general ledger was examined.

A sample of four asset additions and one asset disposal were judgmentally selected and testing performed to ensure:

- the tax invoices existed;
- correct posting to the general ledger;
- fixed assets register was promptly updated;
- classification of assets was correct; and

Four assets were judgmentally selected and testing performed to ensure the depreciation rate used was in line with the Shire's policy.

We concluded fixed assets are properly accounted for and supporting controls are operating effectively, except for the following matter:

**We noted that the reconciliation of the fixed assets register to the general ledger had not been reviewed for the months of November 2015 and March 2016.**

**Auditors Comment:**

To help ensure adequate control is maintained over fixed assets, reconciliations should be reviewed by a senior staff member independent of preparation. This review should seek to confirm the accuracy of the reconciliation and should be evidenced accordingly.

**Management Comment**

*As per on going procedures all key reconciliations will be reviewed by an independent person monthly.*

4.10 Cost and Administration overhead allocations

The Shire's cost and Administration allocation system was examined to determine if indirect costs have been properly reallocated to various jobs/programs. This included review of the allocation basis of rates used to ensure they are appropriate and regularly reviewed.

**Our review noted public works overheads and plant operating costs have not been fully allocated at 30 April 2016. Whilst this has no effect on the net operating result, it may distort the true cost of individual jobs and specific expenditures at a given point in time.**

**Auditors Comment:**

To help ensure plant operating costs are fully allocated, allocation rates should be reviewed on a regular basis and revised where applicable. Rates used should be supported by documentary evidence comprising supporting working papers which should be printed and filed in the monthly reconciliation files.

**Management Comment**

*Rates have been reviewed to ensure they reflect the true costs.*

4.19 IT General Environment

During our review of the Shire's general IT environment, we noted the general IT controls are operating effectively except for the following matter:

**Passwords are not changed on a regular basis.**

**Auditors Comment:**

To help ensure no unauthorised access to the server, passwords should be changed regularly.

**Management Comment**

*Council's IT support has now adjusted the server so passwords will be prompted to be changed once every three months.*

#### **4.20 Financial interest register**

The register was examined to ensure compliance with regulatory requirements. Our review noted the register was deemed to be satisfactorily maintained and appropriate for Council needs, except for the following matter:

**In one instance, a primary return of one designated employee was not lodged within three months of the "start date" as required by Section 5.75(1) of the Local Government Act.**

#### **Auditors Comment:**

To help ensure compliance with statutory provisions, all designated employees are reminded a primary return is required within three months of their start date.

#### **Management Comment**

This was an oversight which once identified was rectified immediately. To assist in ensuring this does not occur into the future a checklist has been developed and incorporated into the Council employee recruitment process.

#### **RECOMMENDATION**

**That Council receive the Financial Management Review Report for 2015/16.**

### BRIEF

For the Audit Committee to accept the findings in the Better Practice Review (BPR) report from the Department of Local Government (DLGC)

### ATTACHMENTS

Attachment 4: Better Practice Review

### BACKGROUND / DETAILS

The Better Practice Review (BPR) was an initiative by DLGC to assist local governments to internally review their processes in line with legislation and to recognise and promote good practice in country local governments.

The Program was part of the State Government's Country Local Government Fund Capacity Building Program, and was developed with assistance from the NSW Department of Local Government, based on a similar program that has been operating in that State for a number of years.

The BPR Program entailed a small team assigned to work closely with the Shire to review key areas of the Shire's activities and operations, including governance, integrated planning and reporting, planning and regulatory functions, asset and financial management, community relations and workforce planning.

The program was designed to acknowledge areas of good practice whilst also encouraging improvement in the way local governments conduct their activities to ensure good governance and build the capacity of the local government sector.

The objectives of the BPR are to generate continuous improvement and greater compliance, promote good governance and ethical regulation. The program is used by local government as a health check which allows DLGC to support any areas local government may be experiencing operational problems.

The key areas of this self-assessment checklist are:

- governance;
- planning and regulatory functions;
- strategic and corporate planning;
- assets and finance;
- workforce planning and human resources management; and
- community consultation.

A team from DLGC attended the Shire on 20, 21, 22 October 2015 where they conducted interviews, collated information and documentation relating to the Shire's general practices. A written report was provided highlighting areas where the Shire of Northam demonstrated good practice, as well as providing constructive feedback on addressing any areas for further improvement.

Where appropriate, the key areas requiring further development featured suggested recommendations from the Department that the Shire can undertake to address these issues.

## **CONSIDERATIONS**

Council should consider the difference between quality, professionalism and price in relation to the provision of preferred services.

## OFFICER'S COMMENT

The BPR conducted in October 2015 provided invaluable insight into the strengths of the Shire and areas requiring further work. Some of the areas identified as requiring further work were:

- Business Continuity Plan – the Shire has since conducted several workshops relating to the provision of a Business Continuity Plan;
- Governing of Agenda Forum Meetings – now under review;
- Outdated Information Statement – the statement has now been updated;
- Provision of a statement of Business Ethics to contractors; and
- Customer Service Charter – This was completed and reviewed and approved by council.

Some of the areas identified as good practice are:

- Process Mapping;
- Record Keeping Practices;
- Credit Card holder agreements;
- Pool inspection program;
- Local Biodiversity Strategy; and
- The Shire has good financial management and control in place.

The Shire faired extremely well in the audit with a high compliance rate and the DLGC complimented the Shire on many of it's practices.

### RECOMMENDATION

**That Council accept the report from the Department of Local Government and Communities Better Practice Review.**
