The entrance to the building is at the northern corner through a sculptural framed portico. The windows and doors are rectangular aluminium framed with rendered arched labels above.

There is a garden to the front with a rock border and a sign within that reads 'LINK THEATRE'. A gravel parking lot extends along the eastern side towards the rear of the building.

Condition: Good

HISTORICAL

Notes:

The first Presbyterian Church services in Northam were held in 1897 in the original Mechanics Institute building. In July 1898, a small weatherboard building became the first Presbyterian Church. During the gold boom years, the congregation increased rapidly, and work began on a new church building in 1908. St Paul's was used until the Presbyterians and Methodists in Australia joined to form the Uniting Church in the 1970s from which time services were held in the Methodist Church, so the Presbyterian Church was no longer used. The Northam Theatre Group purchased the old church, and community volunteers converted it into a theatre complex, the Link Theatre.

Theme: Church, Cathedral or Chapel

Associations:

Heritage Assessment or Conservation Plan:

Public Access: Yes (limited)

SIGNIFICANCE

Level of Integrity: Medium

Level of Authenticity: High

Statement of Significance:

Link Theatre is of cultural heritage significance for the following reasons:

- The place has aesthetic significance as an example of a Federation Gothic building, which was typical of many churches of the period, that contributes to the streetscape and broader townscape character of Northam.
- The place has historic significance for associations with the Presbyterian Church (1908-1970s) and Link Theatre from the 1970s.
- The place has social significance as the venue for a range of functions, events, community groups and activities since 1908, both as a church and as a theatre. Level of Significance: Considerable

Heritage Category: 2
