

2019-2020 Rates Information

Council rates are a contribution each property owner makes towards the cost of providing facilities and services in the Shire of Northam.

Gross Rental Value (GRV)

The rates are levied based on the values of the rateable properties as provided by the Valuer General. Gross Rental Values (GRVs) are used for urban properties, and these are re-assessed once every four (4) years. The current values are based on the revaluation effective 1 July 2016 increasing the gross rental valuations.

All properties with the predominant land use of commercial, industrial or community purposes within the Northam Townsite and the Avon Industrial Park raise an amount to fund the Northam Chamber of Commerce for the purpose of promoting Northam Businesses.

Unimproved Value (UV)

Unimproved Values (UV's) of properties, provided by the Valuer General, are used as the basis for the levying of rates for rural properties. Annual revaluations apply for all rural land within the Shire. The valuation was undertaken 1 August 2018, being effective 1 July 2019.

The Agricultural Local Rate are properties that can be subject to further subdivision development, which is not available in the Agricultural Regional Areas. These areas are usually less arable and less productive than land in the Agricultural Regional area.

The Agricultural Regional Rate accommodates the broad acre farming land in the Shire that is not subject to the sub-division potential of the Agricultural Local Area.

The Rural Small Holdings Rate is land that has been rezoned to accommodate the rural residential lifestyle. They are usually fully serviced by power, water and bitumen roads, and are generally located in close proximity to townsites.

Minimum Rates

Council believes that in view of the level of service and facilities available to all ratepayers, the minimum rates are the minimum contributions which should be made by owners of all rateable land, regardless of the value of the property. A minimum rate of \$874 for Agricultural Regional area and \$944 for all other rates category's, per assessment will apply.

Property valuations are set by the Valuer General's Office and are used to determine the rates payable on each property. A revaluation of properties in the UV area is undertaken annually, and quadrennially in the GRV area. As such, a change in your property valuation may have an impact on your annual rates.

If you have a query with your property valuation, or wish to object to a valuation given by the Valuer General's Office, please contact our office to obtain an *Objection to Valuation* form and a *Rates and Taxing Values* brochure.
