

We're on the hunt for

Recycled Artworks

We are searching for budding local artists to celebrate this year's Bilya River Festival event theme: Sustainability.

We're looking for the most creative art pieces (2D & 3D) to display in the lead up to the event, so don't be afraid to let your imagination run wild!

The only restriction to this project is that your artwork must be made from recycled materials. Whether you're an experienced artist or you've never created before, we're looking for pieces from all ages and abilities.
