

TECHNICAL QUERY FORM

TQ/RFI Number:	TQ-02	Date:	20/11/2017
Tender Number:	RFQ 5 of NAEIC	Tender Name:	Media Software
Query:	Why the software production has been segmented into the two packages?		
Response:	<p>The software production has been split into two packages to encourage the broadest range of producers / production companies to apply. Package A contains the larger linear and immersive productions, Package B contains the interactive productions (touch table etc). Producers and production companies are encouraged to apply for both packages if they wish, and feel they can demonstrate experience in both types of production. Because some of the same community members may participate in programs in both packages, there would be some advantages in this. Council did not want to disadvantage smaller or specialist production companies in this process but is equally happy to consider a single company for both packages.</p>		
	All other terms and conditions remain unchanged		
IMPORTANT	Contractors are required to acknowledge this technical query response prior to the Quotation Closing Date - failure to acknowledge may constitute grounds for rejection of Quotation.
