**C. OFFICER'S COMMENT**

**Fire Control Officer - Mark Littlefair**

The Community Emergency Services Manager on behalf of the Council and Staff express their deep condolences to the family, friends and brigade associates on the recent passing of Fire Control Officer Mark Littlefair.

Mark was a highly respected member of the Shire of Northam bushfire community with his contributions greatly appreciated.

### **Acknowledgement of Deputy Chief Bushfire Control Officer 1 Kris Brown.**

The Community Emergency Services Manager passes on his appreciation to DCBFCO Kris Brown for his ongoing assistance. From time to time Kris is called upon to assist with various tasks in relation to the day to day running of the department. His assistance is always enthusiastically given without hesitation and does not go unnoticed or unappreciated.

### **Computer Assisted Dispatch**

The Shire of Northam Bush Fire Service is in the advanced stages of having its brigades mobilised in the first instance through the Department of Fire and Emergency Services (DFES) Computer Assisted Dispatch system.

This will automatically dispatch pre-determined appliances on job submission but will also be followed up with a leadership group call from COMCEN confirming escalation, de-escalation requirements.

It is expected that this will commence in November.

### **Bushfire Manual Review**

This has been a significant body of work carried out in consultation with the leadership group. Chapters 4 and 5 are tabled for adoption by committee members. Refer to separate agenda item.

### **Training Records**

This continues to be an issue for the Community Emergency Services Manager in terms of access and has been escalated within DFES.

### **Permits to Burn**

Following extension of the unrestricted burning period, we are now in restricted burning period. All Fire Control Officers are expected to complete all relevant sections of the permit application, including signing the complete permit.

### **Brigades Undertaking Burns on Shire Verges**

Per the previously tabled verge management policy, brigades "may" undertake these burns with prior Shire approval subject to compliance with verge management policy. Noting that burning is considered clearing and may require a Department of Water and Environmental Regulation (DWER) Clearing Permit if proposed to be conducted more than once in a 7 year period.

### **Verge Spraying**

Verge spraying carried out by the Shire in January and at other regular intervals is targeted maintenance to prevent damage to road and drainage infrastructure.

### **Enquiry on Burning Permit Procedure**

At the June BFAC meeting clarification was sought in relation to the existence of a standard operating procedure in relation to issuing "Permits to Burn". Investigations have been undertaken and no adopted Standard Operating Procedure (SOP) has been located.

#### **RECOMMENDATION**

**That the Bush Fire Advisory Committee endorses the following recommendation being presented to Council:**

- 1. That Council notes the Community Emergency Services Manager Report as provided.**

The Community Emergency Services Manager specifically acknowledges the contribution by Chief Bush Fire Control Officer, Chris Marris, in assisting in the delivery of this draft copy.

**RECOMMENDATION**

**That the Bush Fire Advisory Committee endorses the following recommendation being presented to Council:**

- 1. That Council adopts the updated Section 4 and Section 5 of the Bush Fire Manual as presented, to replace the previous Section 4 and Section 5 of this document from 2018.**
- 2. That Council approves a transition target period of 18 months for the training requirements of roles specified within section 4 and 5, to allow members currently holding these positions to meet any training gaps while continuing to fill these roles.**

**PART 4 BUSH FIRE BRIGADES**

## **4.1 Establishment of a Bush Fire Brigade**

The Shire of Northam may establish a Bush Fire Brigade for the purpose of carrying out normal brigade activities in accordance with section 41 of the Bush Fires Act 1954.

On establishing a Bush Fire Brigade, the Shire of Northam is to give a name to the Bush Fire Brigade, specify the area in which the Bush Fire Brigade is primarily responsible for carrying out normal brigade activities (the "brigade area") and appoint some or all of the following:

- Captain;
- First Lieutenant
- Second Lieutenant;
- Additional Lieutenants if the brigade considers it necessary.
- Equipment Officer;
- Secretary; and
- Treasurer; or
- Secretary/Treasurer combined.

When considering the appointment of persons to the positions of the above, the Council is to have regard to the qualifications and experience that may be required to fill each position. A person appointed to a position is to be taken to be a Brigade Member.

The appointments expire at the completion of the first Annual General Meeting of the Bush Fire Brigade. If a position becomes vacant prior to the completion of the first Annual General Meeting, then the Shire of Northam is to appoint a person to fill the vacancy.

## **4.2 Brigade Membership**

Membership of a Bushfire Fire Brigade comes with responsibility toward the community and other brigade members. Key appointments and office bearers take responsibility for the proper administration of membership and management of members on behalf of the Shire of Northam and the broader community in accordance with the relevant State Hazard Plan (FIRE) and all relevant legislation, policies and procedures.

Whilst Office Bearers of a Bushfire Fire Brigade provide the leadership and management for the Brigade, all members are expected to adhere to appropriate standards of conduct, ethical behaviour and safe work practices. The Shire of Northam, and where applicable, DFES Code of Conduct clarifies the standards of behaviour expected when undertaking duties through a clear set of principles to ensure the standards and integrity expected by the community are met.

### **4.2A Applications for Membership**

To join a brigade, a prospective member is required to:

- Complete a membership application form and accept the conditions for membership.

- The application will be considered by the Captain for approval and if approved, then forwarded to the CESH for registration within 14 days of the approval.
- If a membership application is refused, as soon as practicable after the decision is made, the Captain is to give written reasons for the refusal to the applicant and the Shire of Northam, including advice that the applicant has the right to object to the Shire of Northam.

#### **4.2B Criminal History Checks (CHC)**

All applications for membership to the Shire of Northam Bush Fire Service are subject to a Criminal History Check.

Note: A criminal history does not automatically exclude an applicant from membership.

#### **4.2C Probation Periods**

All new members are placed on a period of probation for up to 3 months or until such time as the brigade leadership team recommends that a member is offered full membership of the brigade.

If the applicant is not offered full membership the following options apply.

- Be offered additional opportunities and training to achieve full membership.
- Be deemed unsuitable for membership and their application made unsuccessful.

Whilst a member is on a period of probation, they are not eligible to attend station or operate appliances without competent supervision.

#### **4.2D Types of Membership of Bush Fire Brigades**

There are four regulated roles within a brigade:

- Active
- Auxiliary
- Probationary
- Honorary Life Member

As a condition of membership, all members must comply with legislation, the Shire of Northam's Standard Operating Procedures (SOPs), Policies and Procedures, that are relevant to their duties as a brigade member.

Members must act in accordance with the Shire of Northam's Bush Fire Manual which includes relevant codes of conduct, policies, procedures and guidelines issued by the Shire of Northam as well as any applicable DFES policies, and policies of their brigade.

The membership of a Bush Fire Brigade may consist of all or some of the following –

##### **Active**

Members are those persons who undertake all normal Brigade activities, including but not limited to frontline firefighting duties.

Volunteer Fire fighters aged 16 or 17 years of age should be accompanied by and under the direction of a parent or guardian when on the fire ground.

Normal brigade activities include but not limited to, training, meetings, maintenance, community engagement, incident response, fundraising, administrative duties, and any other activity that would reasonably be required to maintain the day to day operation of the brigade.

#### **Auxiliary Member**

Auxiliary Members are those persons being at least 16 years of age who provide varied but infrequent support to the Brigades. An auxiliary member can not provide frontline firefighting support to the brigade.

The auxiliary member may be reclassified as active by request to, and subsequent agreement of the Brigade Captain. They may be required to update or undertake additional training related to the role.

Auxiliary Member will not be eligible to vote in Brigade meetings.

#### **Probationary Member**

First time new member completing their probationary period.

Probationary members will not be eligible to vote in brigade meetings.

#### **Honorary Life Member**

The Bush Fire Brigade may by a simple majority resolution, appoint a person as an Honorary Life Member in recognition of services by that person to their Bush Fire Brigade. Each brigade must adopt/develop a procedure and criteria that must be met prior to a life membership being considered.

Honorary members are eligible to vote at the discretion of the member brigade.

#### **4.2E Nomination of Brigade Representatives to the Bush Fire Advisory Committee**

At the Annual General Meeting of a Bush Fire Brigade, one Senior Brigade Member is to be nominated to the Bush Fire Advisory Committee to serve as the representative for the brigade. An additional Brigade Member is to be nominated to serve as a proxy representative if the Brigade Representative is not able to attend a Bush Fire Advisory Committee meeting.

#### **4.2F Dual Membership**

A member may be a member of another Bush Fire Brigade, Fire and Rescue Brigade or State Emergency Service Unit, subject to the relevant Captains approvals.

#### **4.2G Transfer between Brigades**

A member of a brigade may transfer to another brigade if:

- the new brigade has a vacancy in an appropriate category of membership and agrees to the transfer.
- Brigade transfers are to be recorded through the completion of the Application for Registration.

A transfer between Brigades may initiate the requirement for an updated Criminal History Check (CHC). All brigade property must be returned to an office bearer of the former brigade prior to the transfer taking effect. Exceptions to this may occur, where in consultation with the Brigade Captain and approval by the CESM, it is considered to be practical and cost effective for the member to retain items such as PPC for use at the new brigade.

#### **4.2H Suspension of Membership**

Where circumstances arise that an immediate suspension of a member is required the Captain may temporarily suspend the member after giving them reasons why the suspension is occurring.

The Captain subsequently must at the earliest opportunity inform the CBFCO and the CESM of the circumstances that resulted in the suspension and the subsequent process detailed below must be followed.

It is encouraged the Captain keeps written records or notes of all the information relating to a suspension and that of witnesses. It is important to note that when decisions are being made to suspend or terminate a membership that transparency and procedural fairness must be adhered to.

The Shire shall provide any administrative support required to assist the Captain or CBFCO in the dealing with disciplinary matters.

When suspension or termination is being considered, the following procedures must be followed:

1. Where the Captain or other elected officer of the Brigade, considers that on complaint or observation a member of the service has:
  - Breached the Shire of Northam, Department of Fire and Emergency Services Code of Conduct
  - Shire of Northam and/or Department of Fire and Emergency Services Policies, Doctrine or Procedures
  - Engaged in conduct that does not meet the standards required of a member of the Brigade, they may temporarily suspend the member.
2. Where the Captain or other elected officer considers it appropriate and necessary to temporarily suspend a member of the Brigade, they must provide notice in writing to the volunteer outlining the reasons for the suspension within 7 days of the member being advised of the suspension.
3. The notification must be in sufficient detail for the member to know what has been alleged so they are able to adequately respond. The member must also be informed of the possible sanctions that are available to the group of Office Bearers if the allegation(s) is/are found proven.
4. The Officer Bearers shall convene a meeting as soon as practicable. The member must be informed of the time, date and location of the meeting in writing least 14 days prior to the meeting being held or by mutual agreement.
5. The member must be allowed to make submissions at the meeting either orally or in writing, and if requested may have a support person present. The

support person cannot answer for the member and is there only to support the member through the process.

6. The member must be given sufficient time to make their submission and their submission must be given due consideration, without bias.

Possible outcomes of any meeting to discuss a volunteer's behavior are as follows:

- No further action.
- Counselling or other improvements action.
- Suspension for a designated time period.
- Termination of membership.

The Captain must advise the member in writing within 14 days of the meeting being held of the outcome of the meeting. Such notification shall include the options for the member to appeal the decision as per below.

### 5.7 Ancillary Items

#### 5.7B WAERN Radios issued to BFCO's

Historically Bush Fire Control Officers were issued by WAERN radios by the Department of Fire and Emergency Services.

Many WAERN radios remain in circulation within the Shire, however the sourcing and allocation of additional radios from DFES are now considered not guaranteed.

If an BFCO in possession of a radio resigns, retires, or is terminated, they are required to contact the CESM so suitable arrangements can be made for its removal. Non-

compliance with this instruction may result in the Shire undertaking recovery proceedings.

Available radios will be allocated to requiring BFCO's in descending order as determined by the CBFCO. BFCO's who do not meet the requirements of the role may have their WAERN removed and reallocated.

#### 5.7C Bush Fire Control Officer Radio Call signs

In the Shire of Northam, the radio call signs for BFCO's will be:

- Northam Chief
- Northam Deputy 1
- Northam Deputy 2
- CESM Northam

All other BFCO's on the Northam network will be:

- Northam FCO and their Surname - example "Northam FCO Bloggs"

#### 5.7E Fire Support Vehicle

The Shire of Northam may provide a vehicle to the Chief Bush Fire Control Officer or their delegate to support the execution of their duties only.

Allocations of this vehicle and its use are at the discretion of the local government and may be withdrawn at any time.

Drivers of the vehicle must hold a valid and relevant Western Australian drivers license and accept responsibility for any traffic infringements incurred during its use.

#### 5.7F Mobile Phones and Tools of the Trade

The CBFCO and DCBFCO(s) for the Shire of Northam may be issued with equipment relevant to the role including but not limited to:

- WAERN radio(s)
- Mobile Phone or Sim Card
- Laptop/Tablet
- Printer
- Other equipment as agreed

Each BFCO will receive:

- a PAX folder with aide memoirs
- a Bushfire Service dress shirt and epaulettes (for official functions)

Where a BFCO retires or is terminated, all property owned by the Shire of Northam shall be returned to the Shire administration personnel within fourteen (14) days of giving notice. Failure to meet these conditions may require the Shire to seek reimbursement of costs against the member.

#### 5.7G Permits to Set Fire to the Bush

Applications for fire permits are to be entered onto Shire's permit application system. The application shall be issued to the resident after authorisation by the relevant BFCO. All permits issued must comply with the relevant SOPs and achieve compliance with the Bushfires Act 1954.

All permits are to be issued using the standard template and conditions for permits as set by the shire and in consultation with the CBFCO. The CBFCO or CESM may cancel a permit or ask the BFCO to re-evaluate the conditions on the permit to ensure a consistent and professional approach.

CBFCO and CESM are exempt from the above conditions for permits that may require deviation from the above.

Should a BFCO receive two (2) official written warnings from the Shire of Northam's Chief Executive Officer for violations in regard to the issuing of permits or any inappropriate use of power of a BFCO permit officer, they may be terminated from the position as per the termination process outlined in this document.

**C. OFFICER'S COMMENT**

I would like to start by taking a moment to acknowledge the late Mark Littlefair, a member of this forum, an active Bush Fire Control Officer, the Training Officer for Grass Valley Bush Fire Brigade, a fellow Firefighter, a gentleman and a friend, who was lost recently in a tragic accident on his property. Mark will be sorely missed by all who knew him. I thank Brigades and members who assisted Grass Valley during their open day immediately following Mark's passing and those who helped form a guard of honour at Mark's funeral.

While time takes too many who have given endlessly to our service, a special mention is also warranted for Eric Fox who was laid to rest in late October. Among many things Eric gave to his community and our fire service was the establishment of a comprehensive and well-run radio network that enabled effective early communication during countless incidents. The impact of this communication would be immeasurable; lives, houses and livelihoods saved. While we benefit from mobile phones today, most of us would still love to see such a strong radio network in place today to assist with fire response. It is underappreciated by those who do not understand the essential need for private response in our incident response in rural areas.

Some progress has been made over the past 12 months regarding getting WAERN radios back into BFCO vehicles, with four radios having been

installed/reinstalled in BFCO vehicles. It has been a battle, so thank you to those involved in making this happen.

The 2023/24 fire season has started with some gusto with some 13 incidents so far for October, including an incident that burnt some 30ha of bush in Throssell and another incident in Bakers Hill that went to Emergency Warning due to an immediate threat to nearby housing. Thankfully firefighters were able to stop both of these incidents before they escalated further.

On October 11, we held our annual BFCO pre-season forum, followed by a leadership team (BFCO and Captain) scenario evening in Northam. The pre-season discussed a refined process to assist with managing private response; an essential element to fire response in rural areas. One of the scenarios became a little too close to reality, with the Throssell job occurring in a patch of bush that one of the scenarios finished in.

The East Brigade scenario evening had to be postponed unfortunately due to the Throssell incident, however, the West Brigade scenario evening progressed as planned on October 25 and was attended by over 20 members from Wundowie, Inkpen, Bakers Hill and Clackline brigades. Thanks to all who attended, including a number of new members.

Jumping back some time, in late July I attended the first Chief's Forum at the Bushfire Centre of Excellence, with some eighty chiefs from around the State gathering. It was an interesting few days, with some good networking and a chance to raise some of the pressing issues challenging our service.

In August and again in September, Alex and I went to DFES in Cockburn to try to initiate an updated mobilisation procedure; a legacy action item for the previous CESM from an Operational Commanders meeting. We are now at the point where this change should be implemented sometime in November 2023 and will see a default mobilisation of local brigades prior to the initiation of the Group Call. It is hoped in some instances this may speed the initial mobilisation of Brigades by one to a few minutes.

In September, I was fortunate to attend the WA Fire and Emergency Services Conference in Perth along with a number of other Shire of Northam volunteers and witness our CESM win the Volunteer Fire and Emergency Services Individual Achievement Award. Well done Alex.

Also in September, following consultation with Captains, I took a motion to the Northam DOAC for the development of three new DFES courses including:

1. Introduction to Incident Controller Level 1
2. AIMS for new Level 1 Incident Controllers
3. Hazmat and Hazard Identification and Initial Actions for BFB's

This was supported unanimously by DOAC and is now going to the Volunteer Bush Fire Service Training Advisory Group meeting scheduled for November 4 which I sit on. I'll provide an update on the outcome of this during BFAC.

Over the past 12 months and in particular, in the last few months, Alex and I have been meeting regularly to progress the Bush Fire Manual Review. This has taken many many days of review, but I believe we are close to achieving the right balance of how descriptive we are to Brigades in their running, along with acknowledging that training for leadership positions is something that can be managed as a process to help ensure the right candidates step forward and that their training is matched with experience. A workshop on the proposed new manual was held on October 24 to discuss the key elements of the Manual with a range of Brigade stakeholders. If adopted, it will be important for there to be a transition period for the new training requirements of the Manual so as to allow currently elected members to meet any new training requirements in a fair manner.

I am pleased to be heading into the forthcoming season with a number of areas of progress having been made, however, there are still many areas that need attention. The ability to get training, including the ability to deliver training courses ourselves, is still far from optimal and needs ongoing work. Volunteer retention and recruitment also needs to be a focus, after a number of years of challenges in this space with Covid 19 and WHS impacts. I acknowledge the high level of commitment and dedication being given by our regulars across the service.

Finally, on behalf of the whole leadership team, I would like to take this opportunity to thank all members and staff for their service in 2023. We wish you all a safe Christmas and look forward to working with you in 2024. Merry Christmas.

## 7.5 Festive Season Harvest Vehicle Movement Ban

### **BRIEF**

The current harvest is set to be below average this year with an earlier than usual start to harvest.

While Harvest Vehicle Movement Bans are designed to manage fire risk, and availability of resources to respond to incidents, we must balance this risk with the cost and impost on industry and the community more broadly.
