LEMA Review

The work on compiling your feedback and developing the new LEMA improvement plan is continuing. The LEMA improvement plan is expected to be finalised by June 2023.

Just a reminder, this in no way affects the legislated requirement for you to review your plan every 5 years, so meanwhile, please ensure your plan is current. If you have any questions please don't hesitate to give me a call.

SEMC Website

A reminder that the SEMC website has changed locations. It has been brought under the WA government banner and is now available under the [WA.gov.au](https://www.wa.gov.au/organisation/state-emergency-management-committee) website at this link:

Western Australian EM Capability Framework (revised) and Local Government EM Capability summary reports.

DFES State Capability Team has undertaken a comprehensive review of the SEMC's Emergency Management Capability Framework. The purpose of the review is to ensure that the framework is consistent with evolving EM best practice and stakeholder needs.

The revised framework is currently out for consultation, closing on Friday 3 March 2023. You can download the draft framework and submit any feedback at this link;

<https://dfes.mysocialpinpoint.com.au/capabilityframework>

LG Capability Summary reports

The summary report of your EM capabilities as reported last year in the Capability Survey was recently sent to all Local Governments. It may be useful to the LEMC in the following ways;

- Informing EM exercising (choosing a capability to exercise)
- Informing LEMA
- Informing LEMC business plans or agendas.
- Informing potential risk treatment options
- Supporting business cases and/or funding applications
- Highlighting areas of success.

New LEMC Handbook and useful tools

The DEMAs across the state have just finished developing a contemporary LEMC handbook to assist local governments in the management of their LEMCs and to assist them as they work to meet their legislative requirements. The guide has a few templates at the back which may also be useful, agenda templates and a Terms of Reference template.

The Handbook is currently out for consultation, you can download the draft document and submit your feedback here;

<https://dfes.mysocialpinpoint.com.au/localemergencymanagementcommitteehandbook>

Keeping LEMC agendas fresh and effective with a focus on resilience, capability, and risk reduction.

A LEMC Health checklist has been developed to assist LGs and LEMC members assess how their LEMC is progressing. *(Please refer to the LEMC Health check list as attached).* The intention is to work on this over a number of years, using a traffic light system to track your progress. Any of the gaps identified would make great discussion or action items for your LEMCs and will assist to build meaningful LEMC agendas.

Some key things you could consider immediately, discuss or even workshop at your LEMC are listed below;

- Have you taken the time to seriously consider your membership? Is it reflective of your community? (Suggestions include emergency services, state agencies, community groups/leaders, representatives of vulnerable groups, welfare/social service groups/non-government organisations, industry and business, essential service providers.)
- To build further resilience to prepare, respond and recovery from emergency events, have you considered developing partnerships for mutual aid or assistance with stakeholders in your area? Examples include neighbouring LGs, agencies, community organisations or industry and business.
- Consider assessing your capability summary report and identifying capability gaps. Discuss with your LEMC and encourage their input to determine if there are any areas of critical vulnerabilities. Encourage their input to advise of any emerging risks that they may know of.
- Do your LEMC members understand your risk profile? Besides bushfires what other hazards and possible impacts should LEMC members be aware of? Review your risk register or list of emergencies likely to occur.

BRIEF

ATTACHMENTS

A. BACKGROUND / DETAILS

The Shire of Northam would like to introduce a renewed focus on the Local Emergency Management Committee (LEMC) and its intent.

Consideration should be given to the direction and intent of the LEMC by elimination of unnecessary process' and information, and the introduction of absent process' and information through a multi-agency gap analysis.

C. OFFICER'S COMMENT

Review of previous LEMC documents indicate an array of unnecessary or expired information, and the absence of potentially important procedures and information, specifically in relation to the preparation and recovery phases of a major incident.

It is important that the LEMC is prepared to act in the event of an emergency by having an up-to-date LEMA.

RECOMMENDATION
