Agency Updates:

Department of Communities:

Ms J Spadaccini provided information and discussed the Local Welfare Plan (Confidential attachment provided separately with the agenda), noting that the intention is to table this document at the Local Emergency Management Committee meeting to be a supporting document for the LEMA.

Ms J Spadaccini also advised that they have been completing an audit all evacuation premises', this involves a 5 page document to list the building types and ratings that the Shire of Northam will need to complete and return by the end of October 2023. It was also noted that the Shire of Northam only has a premise listed for Northam itself and not in the surrounding areas, Executive Manager Development Services and Community Emergency Services Manager discussed that the Bakers Hill Recreation Centre and the Wundowie Town Hall may also be evacuation centres.

Outcome: *The Executive Manager Development Services and the Community Emergency Services Manager will investigate and confirm if the Bakers Hill Recreation Centre and the Wundowie Town Hall are evacuation centres and if they are listed in the LEMA. The Shire of Northam will also complete and return the Auditing document and return it to the Department of Communities by the end of October 2023.*

WA Police:

Mr R Eastman requested an update to the Shire of Northam Airport Emergency Plan, LEMA and Contacts and Resources documents as last updates available to Mr Eastman are from 2016/2018.

The Shire of Northam discussed recent updates to the Local Emergency Management Committee Contacts and Resources list. The contacts list is currently being converted to a Smartsheet document that will be made available to all agencies involved in LEMC. This document will hold all relevant names, contact numbers and addresses for services/agencies to use in emergency situations. The Smartsheet will be set up with an automation that will send out an update request to agencies every 3 months (at least 1 month before a LEMC meeting), agencies will be asked to review their contact information and advise any changes that need to be made. Any agencies who have not provided an update will be raised at the following LEMC meeting. Staff are currently working to identify the best way to incorporate the lists of resources associated with each agency in the sheet.

Department of Fire and Emergency Services (DFES):

No updates to provide.

Department of Primary Industries and Regional Development:

Mr J Russell noted that a report will be sent through to agencies, this report will include information on 7 declared level 1 incidents involving plant and aquatic pests. Some of the information will be in regards to a Red Dwarf Honey Bee infestation, the Kimberly floods and the recent tropical cyclones.

Main Roads:

Mr G Putland noted that Main Roads is currently working on their annual re-write and review of incident management and procedures, which includes looking at how to improve communication with other agencies.

Mr G Putland has advised that the staff in the Wheatbelt region of Main Roads have 42 Local Governments in their area and as such request that the Shire of Northam reach out and advise if an item on the Local Emergency Management Committee agenda is relevant to them and they will endeavor to make sure at least one person will be available to attend the meeting.

Western Power:

No updates to provide. Mr C Rose advised that he is new to his role at Western Power but will come to the next LEMC meeting prepared to provide an update.

Northam Bush Fire Brigades:

No updates to provide. Mr K Brown noted that we are currently in the quite time of the year, the brigades are currently working through updating any required training before the season starts again.

Wheatbelt District Advisor Report May June 2023

ANNUAL LEMC REPORT

In accordance with Sections 33 and 40 of the Emergency Management Act 2005, Local Emergency Management Committees (LEMC) are required to submit an annual report on activities undertaken by it during the financial year. In previous years, this reporting requirement was fulfilled by Local Government's participation in the Annual and Preparedness Report Capability survey.

This year with the finalisation of the State Risk Project and Capability Framework review, LEMC reporting requirements can be fulfilled by completing the LEMC Annual Report Survey.

Information gathered in this survey provides opportunity to highlight the important contributions made by Local Governments and LEMCs to emergency management in Western Australia.

The survey was forwarded to your Local Government this week. Please ensure it is returned to your District EM Advisor by no later than COB 30 June 2023.

REVIEWS

There are currently a number of major reviews occurring across the WA Emergency Management Sector.

- State Risk Project
- LEMC and DEMC review
- Review of "Guidelines for Preparing a Bushfire Risk Management Plan
- State Capability Framework Review
- SEMC Subcommittee Review and outcomes
- Emergency Services Bill 2022

Two reviews that will impact the LEMC are outlined below;

The Local Emergency Management Arrangements Review.

The consultation period has finished, and a draft Implementation plan has been finalized outlining 3 main objectives in phase 1.

- Objective 1: Reduce LG administrative burden and build LG knowledge and capability through the development of a suite of supporting resources made available through an appropriate digital platform.
- Objective 2. Identify and implement appropriate strategies to support integration, collaboration and resource sharing between LG and key stakeholders.

- Objective 3. Support continuous improvement and ongoing reform, through a review of Phase 1 outcomes to identify and progress further opportunities.

Timeframes: The draft Implementation plan is going to SEMC in August for approval. It is expected to take until June 2025 (at least) until the new LG EM Policy is written and the Pilot LEMA process has been tested.

Constraints: Lack of funding and the large number of other projects occurring simultaneously.

Key Message: If your LEMA is becoming due for review, continue the review as normal as it may be a few years before the current LEMA review process is finalised.

LEMC and DEMC Review

As a continuation of the SEMC Subcommittee review, the SEMC is undertaking a LEMC and DEMC review project. The project aims to;

- Establish clear roles and responsibilities, functions and governance for DEMCs and LEMCs in achieving the strategic objectives of the SEMC.
- Identify improvement opportunities to governance arrangements and capabilities to increase effective and efficient emergency management outcomes.
- Create a shared understanding of SEMC expectations of DEMC s and LEMCs within the emergency management sector.

The Consulting firm “Nexus Consulting” are current undertaking a series of focus group discussions. Further workshops will be held in the coming months and a report will be finalized by September 2023.
